

**Designation: D4081 – 16 (Reapproved 2023)**

## Standard Specification for Drycleaning-Grade Perchloroethylene<sup>1</sup>

This standard is issued under the fixed designation D4081; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

### 1. Scope

1.1 This specification covers drycleaning-grade perchloroethylene suitable for use in the drycleaning industry.

1.2 The values stated in SI units are to be regarded as standard. No other units of measurement are included in this standard.

1.3 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety, health, and environmental practices and determine the applicability of regulatory limitations prior to use.*

NOTE 1—Guide [D3844](#) provides additional important information on proper labeling.

1.4 *This international standard was developed in accordance with internationally recognized principles on standardization established in the Decision on Principles for the Development of International Standards, Guides and Recommendations issued by the World Trade Organization Technical Barriers to Trade (TBT) Committee.*

### 3. Properties

3.1 Drycleaning-grade perchloroethylene shall conform to the requirements prescribed in [Table 1](#).

3.2 Maximum acid acceptance specification of 0.03 weight % as NaOH distinguishes drycleaning-grade perchloroethylene from vapor-degreasing-grade perchloroethylene which is formulated specifically for that application.

### 4. Packaging and Package Marking

4.1 Package and label industrial or commercial quantities in accordance with DOT regulations [49 CFR 100 to 199](#), and in accordance with state and local regulations, and with OSHA regulations found in [29 CFR 1910.1200](#).

4.1.1 The proper shipping name for perchloroethylene is UN 1897, tetrachloroethylene.

### 5. Keywords

5.1 perchloroethylene; tetrachloroethylene drycleaning solvent
