

Methods for analysis and testing of coal and coke —

**Part 106: Ultimate analysis of coal and
coke —**

**Section 106.6 Determination of chlorine
content —**

Subsection 106.6.1 Eschka method

ICS 75.160.10

National foreword

This British Standard is the UK implementation of ISO 587:1997. Together with BS 1016-106.6.2 it will supersede BS 1016-8:1977.

The UK participation in its preparation was entrusted to Technical Committee SFI/3, Analysis and testing of coal and coke, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

Under a scheme for the rationalizing and restructuring of BS 1016, the parts numbered from 1 to 21 are being gradually withdrawn and replaced with parts in a new series. The full list of parts in the new series, together with the corresponding numbering of the old series and related ISO standards is given in BS 1016-100 *General introduction and sampling report*.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the ISO title page, pages ii to iv, pages 1 to 5 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
