Amendment Slip No. 1, published 6 March, 1972

to B.S. 3628 : 1963

Hose clips (worm drive type)

for general purpose use

Revised text

Table 1. Add the following Note below the table:

*NOTE. This British Standard lays down tests that are performed on each size of clip using a specified size and type of hose. The tests ensure that all makes of clip are of equivalent performance, but do not guarantee that the clips will satisfactorily hold hoses of diameters at the extremities of a clip's working range, particularly when used with non-standard hose. The user should ensure that the size of clip chosen is compatible with the hose diameter and type.'
