

Methods of measurement of liquid flow in open channels —

Part 4: Weirs and flumes

Part 4G: Flat-V weirs

ICS 17.120.20

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee CPI/113, Flow measurement of surface and ground water, to Subcommittee CPI/113/2, Notches, weirs and flumes, upon which the following bodies were represented:

- British Hydrological Society
- British Waterways' Board
- Chartered Institution of Water and Environmental Management
- Department of the Environment, Transport and the Regions (Water and Land Directorate)
- Environment Agency
- Institution of Civil Engineers
- Water UK

The following body was also represented in the drafting of the standard, through subcommittees and panels:

GAMBICA (BEAMA Ltd.)

This British Standard, having been prepared under the direction of the Sector Committee for Materials and Chemicals, was published under the authority of the Standards Committee and comes into effect on 15 March 1999
