British Standards Institution

Foreword

BS 6566 has been prepared under the direction of the Timber Standards Committee and is in a number of Parts, issued separately. So far eight Parts have been published and Part 9 dealing with strength is in preparation.

- Part 1. Specification for construction of panels and characteristics of plies including marking
- Part 2. Glossary of terms
- Part 3. Specification for acceptance levels for post-manufacture batch testing including sampling
- Part 4. Specification for tolerances on the dimensions of plywood panels
- Part 5. Specification for moisture content
- Part 6. Specification for limits of defects for the classification of plywood by appearance
- Part 7. Specification for classification of resistance to fungal decay and wood borer attack
- Part 8. Specification for bond performance of veneer plywood

This Part of BS 6566 is technically equivalent to ISO 2426-1974 published by the International Organization for Standardization (ISO).

For information on structural use, specifiers should refer to BS 5268 : Part 2.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
