British Standard

Road traffic signs and internally illuminated bollards

Part 1. Methods of test

Signalisation routière. Poteaux lumineux
Partie 1. Methodes d'essai

Verkehrszeichen und hinterleuchtete Zeichen auf Verkehrsinseln
Teil 1. Prüfverfahren

British Standards Institution

BS 873 : Part 1 : 1983

Contents

	Page
Foreword	1
Cooperating organizations	Back cover

Methods

1. Scope	2
2. Definitions	2
3. Test samples of sign face sheet materials or sign face materials	3
4. Photometric properties	3
5. Measurement of coefficient of retroreflection (R')	3
6. Colorimetric properties	4
7. Impact resistance	4
8. Wind resistance	5
9. Resistance to twisting	8
10. Strength of bond between sign face sheet material and sign plate material	8
11. Strength of bond between sign faces and solid glass beads	8
12. Resistance to solvents	9
13. Corrosion resistance to saline solution	9
14. Corrosion resistance to sulphur dioxide	9
15. Resistance to weathering	10
16. Measurement of coefficient of retroreflection of wet retroreflective signs after exposure	13
17. Measurement of coefficient of retroreflection of dirty retroreflective signs after exposure	14

Appendix

A. Relationship between the Regulations, the Traffic Signs Manual and BS 873	Page
	15

Table

1. Impact tests	7
-----------------	---

Figures

1. Areas for determining luminance gradient	3
2. Plan of arrangement of apparatus for measuring the coefficient of retroreflection	4
3. Arrangement of apparatus for measurement of resistance to impact of internally illuminated sign panel and luminaire face panel materials	5
4. Arrangement of apparatus for measurement of resistance to impact of non-internally illuminated sign plate material	6
5. Assembly of specimens for bond strength test (sheet materials)	8
6. Arrangement for testing bond strength of solid glass beads	9
7. Apparatus for sulphur dioxide test	10
8. Apparatus for accelerated weathering test	11
9. Typical arrangement of atomizers as used in accelerated weathering test	12
10. Test arrangements for measurement of coefficient of retroreflection of wet retroreflective samples	13
