

Plates and wide flats made of high yield strength structural steels in the quenched and tempered or precipitation hardened conditions —

Part 2: Delivery conditions for quenched and tempered steels

The European Standard EN 10137-2:1995 has the status of a British Standard

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ISE/12, Structural steels, upon which the following bodies were represented:

- BEAMA Ltd.
- British Constructional Steelwork Association Ltd.
- British Iron and Steel Producers' Association
- British Railways Board
- Department of Transport
- Institution of Structural Engineers
- Lloyd's Register of Shipping
- National Association of Steel Stockholders
- Railway Industry Association of Great Britain
- Society of Motor Manufacturers and Traders Ltd.
- Steel Construction Institute
- Welding Institute

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 April 1996
