

BSI Standards Publication

Influence of metallic materials on water intended for human consumption — Method to evaluate the passive behaviour of stainless steels

National foreword

This British Standard is the UK implementation of EN 16056:2012.

The UK participation in its preparation was entrusted to Technical Committee EH/6, Effects of materials on water quality.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
