Paints and varnishes — Laboratory method for determination of release of substances from coatings in intermittent contact with water

National foreword

This British Standard is the UK implementation of EN 16105:2011.

The UK participation in its preparation was entrusted to Technical Committee STI/10, Test methods for paints.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
