

Dentistry — Dental rotary instruments — Number coding system —

Part 2: Shape and specific characteristics

The European Standard EN 26360-2:1991 has the status of a
British Standard

ICS 11.060.20

National foreword

This British Standard has been prepared by Technical Committee CH/52 (formerly HCC/52) and is the English language version of EN 26360-2:1991, published by the European Committee for Standardization (CEN). It is identical with ISO 6360-2:1986 including Amendment 1:1991, published by the International Organization for Standardization (ISO). Amendment 1 to ISO 6360-2:1986 has been indicated by a sideline. BS EN 26360-2:1998 supersedes BS 6828-5.2:1987 which is withdrawn.

Although it is not normal to include in British Standards text written in a language other than English, it has been done in this case for ease of production and as a help to the reader. As this standard is based on the original international standard, reference to page numbers in the text may be incorrect.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 80 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This British Standard, having been prepared under the direction of the Health and Environment Sector Board, was published under the authority of the Standards Board and comes into effect on 15 January 1998
