

General requirements for bodies operating product certification systems

The European Standard EN 45011:1998 has the status of a
British Standard

ICS 03.120.20

National foreword

This British Standard is identical with EN 45011, General requirements for bodies operating product certification systems. It is a revision of BS 7511:1989, which is withdrawn.

The EN 45000 series of standards will assist the process of mutual recognition between bodies engaged in conformity assessment, the development of national accreditation on a harmonized basis and the notification of such bodies by Governments to perform the relevant functions under European Community directives.

The UK participation in its preparation was entrusted to Technical Committee QS/3, Assessment, testing, certification and inspection, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
