

BSI Standards Publication

**Aerospace series — Paints and varnishes —
Two-components room temperature curing
polyurethane finish — High flexibility and chemical
agent resistance for military application**

National foreword

This British Standard is the UK implementation of EN 4689:2021. It supersedes BS EN 4689:2012, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee ACE/65, Non-metallic materials for aerospace purposes.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
