

General purpose field communication system

The European Standard EN 50170 : 1996 has the status of a
British Standard

ICS 35.100.01; 35.160.35.200

National foreword

This British Standard reproduces verbatim EN 50170 : 1996 and implements it as the UK national standard.

The UK participation in its preparation was entrusted to Technical Committee AMT/7, Monitoring and control aspects of AMT, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

Attention is drawn to the fact that CEN and CENELEC standards normally include an annex which lists normative references to international publications with their corresponding European publications. The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled 'International Standards Correspondence Index', or by using the 'Find' facility of the BSI Standards Electronic Catalogue.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
