

Communication cables — Specifications for test methods —

Part 4-7: Environmental test methods — Damp heat, steady state

ICS 33.120.10

National foreword

This British Standard is the UK implementation of EN 50289-4-7:2008.

The UK participation in its preparation was entrusted to Technical Committee EPL/46, Cables, wires and waveguides, radio frequency connectors and accessories for communication and signalling.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 April 2008
