

Three-phase oil-immersed distribution transformers 50 Hz, from 50 kVA to 2 500 kVA with highest voltage for equipment not exceeding 36 kV —

Part 3: Determination of the power rating of a transformer loaded with non-sinusoidal currents

The European Standard EN 50464-3:2007 has the status of a British Standard

ICS 29.180

National foreword

This British Standard is the UK implementation of EN 50464-3:2007. It supersedes BS 7821-4:1995 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PEL/14, Power transformers.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 August 2007
