

Radio frequency and coaxial cable assemblies —

Part 4-1: Blank detail specification for semi-rigid coaxial cable assemblies

The European Standard EN 60966-4-1:2003 has the status of a
British Standard

ICS 33.120.10

National foreword

This British Standard is the official English language version of EN 60966-4-1:2003. It is identical with IEC 60966-4-1:2003. It supersedes BS EN 60966-4-1:1996 which is withdrawn.

The UK participation in its preparation was entrusted by Technical Committee EPL/46, Cables, wires, waveguides, r.f. connectors, r.f. and microwave passive components and accessories, to Subcommittee EPL/46/1, Coaxial cables, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
