with assessed quality — Detail  
specification for cable-to-board  
connectors, with a modular pitch of  
25 mm and integrated shielding  
function, applicable for transverse  
packing density of 15 mm, having a  
basic grid of 2,5 mm in accordance with  
IEC 60917-1**

The European Standard EN 61076-4-108:2002 has the status of a  
British Standard

ICS 31.220.10

# National foreword

This British Standard is the official English language version of EN 61076-4-108:2002. It is identical with IEC 61076-4-108:2002.

The UK participation in its preparation was entrusted by Technical Committee EPL/48, Electromechanical components and mechanical structures for electronic equipment, to Subcommittee EPL/48/2, Connectors for electronic equipment, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

### Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Standards Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

**Compliance with a British Standard does not of itself confer immunity from legal obligations.**

This British Standard, was published under the authority of the Standards Policy and Strategy Committee on 2 June 2003
