

BSI Standards Publication

Safety of transformers, reactors, power supply units and combination thereof

Part 2-14: Particular requirements and tests for variable transformers and power supply units incorporating variable transformers

National foreword

This British Standard is the UK implementation of EN 61558-2-14:2013. It is identical to IEC 61558-2-14:2012.

The UK participation in its preparation was entrusted to Technical Committee PEL/96, Small transformers.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
