

BS EN 62305-3:2011

BSI Standards Publication

Protection against lightning

Part 3: Physical damage to structures and
life hazard

bsi.

...making excellence a habit.™

National foreword

This British Standard is the UK implementation of EN 62305-3:2011. It was derived from IEC 62305-3:2010. It supersedes BS EN 62305-3:2006, which will be withdrawn on 27 May 2012.

Parts 1, 3 and 4 of EN 62305 contain references to EN 62305-2:2011. This reference is incorrect since Part 2 is not due to be published until 2012 to allow for the finalization of the CENELEC common modifications.

Until EN 62305-2:2012 is published and adopted as BS EN 62305-2:2012, the existing BS EN 62305-2:2006 can continue to be used with the newly published BS EN 62305-1:2011, BS EN 62305-3:2011 and BS EN 62305-4:2011.

The CENELEC common modifications have been implemented at the appropriate places in the text and are indicated by tags (e.g. [C] [C]).

The UK participation in its preparation was entrusted to Technical Committee GEL/81, Protection against lightning.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.
