

BSI Standards Publication

Current and voltage sensors or detectors, to be used for fault passage indication purposes

Part 2: System aspects

National foreword

This British Standard is the UK implementation of EN 62689-2:2017. It is identical to IEC 62689-2:2016.

The UK participation in its preparation was entrusted to Technical Committee PEL/38, Instrument transformers.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
