Low-voltage fuses

Part 3: Supplementary requirements for fuses for operation by unskilled persons (fuses mainly for household and similar applications) — Examples of standardized systems of fuses A to F

National foreword

This British Standard is the UK implementation of EN IEC 60269-3:2025. It is identical to IEC 60269-3:2024, incorporating corrigendum November 2025. It supersedes BS HD 60269-3:2010+A2:2022, which will be withdrawn on 30 June 2028.

The start and finish of text introduced or altered by corrigendum is indicated in the text by tags. Text altered by IEC corrigendum November 2025 is indicated in the text by AC1 AC1.

The UK participation in its preparation was entrusted to Technical Committee PEL/32, Fuses.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations
