Fibre optic interconnecting devices and passive components — Basic test and measurement procedures

Part 3-53: Examinations and measurements — Encircled angular
flux (EAF) measurement method based on two-dimensional far
field data from multimode waveguide (including fibre)

National foreword

This British Standard is the UK implementation of EN IEC 61300-3-53:2021. It is identical to IEC 61300-3-53:2020, incorporating corrigendum June 2023. It supersedes BS EN 61300-3-53:2015, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee GEL/86/2, Fibre optic interconnecting devices and passive components.

A list of organizations represented on this committee can be obtained on request to its committee manager.
