

BSI Standards Publication

Radiation protection instrumentation — Hand-held instruments for the detection and identification of radionuclides and for the estimation of ambient dose equivalent rate from photon radiation

National foreword

This British Standard is the UK implementation of EN IEC 62327:2019. It is identical to IEC 62327:2017. It supersedes BS EN 62327:2011, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee NCE/2, Radiation protection and measurement.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
