

BSI Standards Publication

Safety requirements for secondary batteries and battery installations

Part 6: Safe operation of lithium-ion batteries in traction applications

National foreword

This British Standard is the UK implementation of EN IEC 62485-6:2021. It is identical to IEC 62485-6:2021.

The UK participation in its preparation was entrusted to Technical Committee PEL/21, Secondary cells and batteries.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
