Health informatics – Device interoperability

Part 20701: Point-of-care medical device communication – Service oriented medical device exchange architecture and protocol binding

National foreword

This British Standard is the UK implementation of EN ISO 11073-20701:2020. It is identical to ISO/IEEE 11073-20701:2020.

The UK participation in its preparation was entrusted to Technical Committee IST/35, Health informatics.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
