

Starch and derived products — Heavy metals content —

Part 1: Determination of arsenic content by atomic absorption spectrometry

The European Standard EN ISO 11212-1:1997 has the status of a
British Standard

ICS 67.180.20

National foreword

This British Standard is the English language version of EN ISO 11212-1:1997. It is identical with ISO 11212-1:1997 and implements it as the UK national standard.

This British Standard has been produced to fulfil BSI’s obligation to implement all European Standards but, because of the absence of interest in the UK in the subject concerned, there has been no UK participation in the preparation of EN ISO 11212-1.

Any queries relating to the EN should be directed to BSI, quoting the reference AW/100.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or using the “Find” facility of the BSI Standards Electronic Catalogue. A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, page 2, the ISO title page, page ii, pages 1 to 4 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This British Standard, having been prepared under the direction of the Consumer Products and Services Sector Board, was published under the authority of the Standards Board and comes into effect on 15 April 1997
