

Health and safety in welding and allied processes — Requirements, testing and marking of equipment for air filtration —

**Part 2: Determination of the minimum
air volume flow rate of captor hoods and
nozzles**

ICS 25.160.30

National foreword

This British Standard is the UK implementation of EN ISO 15012-2:2008.
The UK participation in its preparation was entrusted to Technical Committee WEE/40, Health and safety in welding.
A list of organizations represented on this committee can be obtained on request to its secretary.
This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 June 2008
