

Metallic and other inorganic coatings — Electropolishing as a means of smoothing and passivating stainless steel (ISO 15730:2000)

ICS 25.220.40

National foreword

This British Standard is the UK implementation of EN ISO 15730:2016. It is identical to ISO 15730:2000. It supersedes BS ISO 15730:2000 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee STI/33, Electrodeposited and related coatings.

A list of organizations represented on this committee can be obtained on request to its secretary.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Sector Committee for Materials and Chemicals, was published under the authority of the Standards Committee and comes into effect on 15 February 2001
