

BSI Standards Publication

Soil quality - Estimation of abundance of selected microbial gene sequences by quantitative PCR from DNA directly extracted from soil (ISO 17601:2016)

National foreword

This British Standard is the UK implementation of EN ISO 17601:2018. It is identical to ISO 17601:2016. It supersedes BS ISO 17601:2016, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee EH/4, Soil quality.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
