...making excellence a habit.™

National foreword

This British Standard is the UK implementation of EN ISO 22476-1:2012. It is identical to ISO 22476-1:2012, incorporating corrigendum January 2013. It partially supersedes BS 1377-9:1990, specifically Clause 3.1, and also BS 5930:1999+A2:2010, which is being revised to remove any conflicting material. Where conflict arises between BS EN ISO 22476-1 and either BS 1377-9:1990 or BS 5930:1999+A2:2010, the provisions of BS EN ISO 22476-1:2012 take precedence. In BS 5930:1999+A2:2010, specifically in Clause 26.3, where any mention to Clause 3.1 in BS 1377-9:1990 or to the 'International Reference Test Procedure' is found, they should all be replaced by a reference to BS EN ISO 22476-1:2012.

ISO corrigendum January 2013 replaced Figure 4 with a corrected figure.

The UK participation in its preparation was entrusted by Technical Committee B/526, Geotechnics, to Subcommittee B/526/3, Site investigation and ground testing.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
