

Milk and milk products — Detection of *Salmonella* spp.

ICS 07.100.30

National foreword

This British Standard is the UK implementation of EN ISO 6785:2007. It is identical with ISO 6785:2001.

The UK participation in its preparation was entrusted to Technical Committee AW/9, Microbiology.

A list of organizations represented on this committee can be obtained on request to its secretary.

In order to improve the harmonization of testing, users of EN ISO 6785 should be aware that, in the opinion of the UK committee, it may be possible to achieve equivalent results using the horizontal standard BS EN ISO 6579.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 29 February 2008
