

BSI Standards Publication

Nuclear criticality safety — Use of criticality accident alarm systems for operations

National foreword

This British Standard is the UK implementation of EN ISO 7753:2025. It is identical to ISO 7753:2023. It supersedes BS ISO 7753:2023, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee NCE/9, Nuclear Installations, Processes & Technologies (for the development of ISO 7753:2023) and Technical Committee NCE/2, Radiation protection and measurement (for the EN ISO 7753:2025 endorsement).

A list of organizations represented on these committees can be obtained on request to its committee managers.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.
