

Gas cylinders — Refillable seamless steel gas cylinders — Design, construction and testing

**Part 2: Quenched and tempered
steel cylinders with tensile strength
greater than or equal to 1 100 MPa
(ISO 9809-2:2010)**

ICS 23.020.30

National foreword

This British Standard is the UK implementation of EN ISO 9809-2:2010. It supersedes BS EN 1964-2:2001 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PVE/3/3, Gas containers - Transportable gas containers - Cylinder design, construction and testing at the time of manufacture.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 June 2010
