

BSI Standards Publication

Additive manufacturing - Feedstock materials - Methods to characterize metal powders

National foreword

This British Standard is the UK implementation of EN ISO/ASTM 52907:2019.

The UK participation in its preparation was entrusted to Technical Committee AMT/8, Additive manufacturing.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
