

BSI Standards Publication

Global maritime distress and safety system (GMDSS)

Part 9: Shipborne transmitters and receivers for use in the MF and HF bands suitable for telephony, digital selective calling (DSC) and reception of maritime safety information and search and rescue related information — Operational and performance requirements, test methods and required test results

National foreword

This British Standard is the UK implementation of IEC 61097-9:2025.

The UK participation in its preparation was entrusted to Technical Committee EPL/80, Maritime navigation and radiocommunication equipment and systems.

A list of organizations represented on this committee can be obtained on request to its committee manager.
