

BSI Standards Publication

Specification for the testing of balanced and coaxial information technology cabling

Part 1-2: Installed balanced cabling as specified in ISO/
IEC 11801 — Additional requirements for measurement of
resistance unbalance with field test instrumentation

National foreword

This British Standard is the UK implementation of IEC 61935-1-2:2018.

The UK participation in its preparation was entrusted to Technical Committee EPL/46, Cables, wires and waveguides, radio frequency connectors and accessories for communication and signalling.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
