

BSI Standards Publication

Semiconductor devices — Semiconductor interface for human body communication

Part 4: Capsule endoscope

National foreword

This British Standard is the UK implementation of IEC 62779-4:2020.

The UK participation in its preparation was entrusted to Technical Committee EPL/47, Semiconductors.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
