

BSI Standards Publication

Railway applications — Energy measurement on board trains

Part 6: Requirements for purposes other than billing

National foreword

This British Standard is the UK implementation of IEC 62888-6:2019.

The UK participation in its preparation was entrusted to Technical Committee GEL/9, Railway Electrotechnical Applications.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
