Printed electronics

Part 202-5: Materials - Conductive ink - Mechanical bending test
of a printed conductive layer on an insulating substrate

National foreword

This British Standard is the UK implementation of IEC 62899-202-5:2018.

The UK participation in its preparation was entrusted to Technical Committee AMT/9, Printed Electronics.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
