

BSI Standards Publication

**Guide for incorporating human reliability analysis
into probabilistic risk assessments for nuclear power
generating stations and other nuclear facilities**

National foreword

This British Standard is the UK implementation of IEC 63260:2020.

The UK participation in its preparation was entrusted to Technical Committee NCE/8, Instrumentation, Control & Electrical Systems of Nuclear Facilities.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
