Generic smart grid requirements

Part 1: Specific application of the Use Case methodology for defining generic smart grid requirements according to the IEC systems approach

National foreword

This British Standard is the UK implementation of IEC SRD 62913-1:2019.

The UK participation in its preparation was entrusted to Technical Committee GEL/8, Systems Aspects for Electrical Energy Supply.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
