Intelligent transport systems (ITS) — The use of personal ITS station to support ITS service provision for travellers

Part 1: General information and use case definitions

National foreword

This British Standard is the UK implementation of ISO 13111-1:2017.

The UK participation in its preparation was entrusted to Technical Committee EPL/278, Intelligent transport systems.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
