Rubber, raw natural — Guidelines for the specification of technically specified rubber (TSR)

National foreword

This British Standard is the UK implementation of ISO 2000:2020. It supersedes BS ISO 2000:2014, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/50, Raw materials (including latex) for use in the rubber industry.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
