Textiles — Qualitative and quantitative analysis of some cellulose fibres (lyocell, cupro) and their blends

Part 2: Blend quantification using light microscopy method

National foreword

This British Standard is the UK implementation of ISO 21915-2:2020.

The UK participation in its preparation was entrusted to Technical Committee TCI/80, Chemical testing of textiles.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
