Soil quality — Use of extracts for the assessment of bioavailability of trace elements in soils

National foreword

This British Standard is the UK implementation of ISO 22190:2020.

The UK participation in its preparation was entrusted to Technical Committee EH/4, Soil quality.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
