Intelligent transport systems — Freight land conveyance content identification and communication

Part 3: Monitoring cargo condition information during transport

National foreword

This British Standard is the UK implementation of [ISO 26683-3:2019](#).

The UK participation in its preparation was entrusted to Technical Committee EPL/278, Intelligent transport systems.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
