

BSI Standards Publication

**Rubber compounding
ingredients — Carbon black
— Determination of specific
surface area by nitrogen
adsorption methods — Single-
point procedures**

National foreword

This British Standard is the UK implementation of ISO 4652:2012. It supersedes BS 5293-11:1995 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/50, Rubber - Raw, natural and synthetic, including latex and carbon black.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
