

BSI Standards Publication

**Rubber compounding ingredients — Carbon black —
Determination of specific surface area by nitrogen
adsorption methods — Single-point procedures**

National foreword

This British Standard is the UK implementation of [ISO 4652:2020](#). It supersedes [BS ISO 4652:2012](#), which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/50, Raw materials (including latex) for use in the rubber industry.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
