

Measurement of fluid flow in closed conduits — Velocity- area methods of flow measurement in swirling or asymmetric flow conditions in circular ducts by means of current- meters or Pitot statics tubes

ICS 17.120.10

National foreword

This British Standard is the UK implementation of ISO 7194:2008. It supersedes BS 1042-2.3:1984 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee CPI/30/5, Velocity based methods.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 August 2008
