

BSI Standards Publication

Rubber, vulcanized or thermoplastic — Determination of low-temperature brittleness

National foreword

This British Standard is the UK implementation of ISO 812:2017. It supersedes BS ISO 812:2011, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/22, Testing and analysis of rubber.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
